

Summary of Option B

Option B places a single hospital directly in a community of considerable need in the City of Chicago

- West Side is renovated and serves as the single inpatient facility for Chicago (177 beds)
- Lakeside inpatient services are discontinued; the property is sold or used in an enhanced use arrangement
- Hines is renovated and continues much as it is, although somewhat larger
- North Chicago continues much as it is, although somewhat larger with a DoD sharing agreement
- All four sites continue providing an extensive array of multi-specialty ambulatory care services

Summary of Option G

Option G sustains the Madison VAMC by adding nursing home beds

- Milwaukee is renovated and provides a similar range of services as today, although with fewer acute beds (101)
- Madison acquires 75 nursing home beds from Tomah which, in addition to its acute beds, brings the Madison facility to full occupancy (146 beds)
- Tomah provides the same spectrum of services, although with a substantially reduced number of beds (173)
- All current sites maintain active ambulatory care services, and 3 CBOCs are added
- There is no routine contracting in the more remote submarkets
- Approximately 80% of enrollees are within the CARES program access standard for specialized ambulatory care and acute inpatient care

Summary of Option I

Option I emphasizes the use of the existing VA facility

- Iron Mountain has 89 beds: 48 nursing home; 20 medical; 10 surgical; 7 residential rehabilitation; 4 psychiatric
- There is no routine contracting in the more remote submarkets
- Continue as telemedicine hub
- Approximately 35% of enrollees are within the CARES program access standard for specialized ambulatory care and acute inpatient care
- A new CBOC is added at Delta County / Gladstone
