6 referred to as a VA activity. This TOS provides

26 wastes, and radioactive articles requiring a hazardous
27 material label.

19 canceling "FIRST REVISED PAGE 10". Pages should be
20 inserted in the following order, as page 115 would be
21 followed by pages 115-A, 115-B, 115-C, 116, and 117.)

6 accepting office. The carrier will be notified when tenders
7 are removed under these circumstances and will be advised of
8 the basis for their removal. Even though a tender was
9 unintentionally accepted, such tender may be used until it is
10 canceled by the carrier.

2
3 The weights and measurements expressed in this TOS are being
4 changed to indicate only metric measurements. This change
5 will be accomplished in the four steps outlined
6 shown below.

- 7
8 A. First step. In the 1992 edition of the GSA TOS No. 1-D,
9 the weight or measurement in inches, feet, miles
10 or pounds were expressed first after which
11 the metric equivalent of centimeters, meters, kilometers,
12 or kilograms were shown parenthetically.
13
14 B. Second step. In the 1993 edition, GSA TOS No. 1-E,
15 the exact opposite was be shown, i.e., first the
16 appropriate centimeters, meters, kilometers
17 or kilograms were indicated after which
18 the customary weight or measurement in inches, feet,
19 miles, or pounds were shown. The metric conversion
20 in this step did not require tenders to be predicated
21 upon metric measurement. Only when the fourth
22 step, below, is implemented, will carriers be
23 required to submit their tender filings based upon
24 metric measurement.
25
26 C. The third step in implementing the metric conversion will be to
27 round the metric weights and measurements expressed in
28 paragraph B to a whole number, and , in turn, to translate
29 the “whole” metric number to equivalent U.S. weights
30 and measurements. In some instances, the conversion
31 process may result in mixed numbers, i.e., a number
32 containing a whole number and a fraction. The
33 implementation date and process to be used in this step,
34 as well as the implementation date of paragraph D
35 below, has not yet been determined; however, there will
36 be sufficient advance notice given to the carrier
37 industry prior to the implementation of paragraph C
38 and D.
39
40 D. The fourth and final step of the conversion process
41 will be to display only the metric system of
42 measurement, eliminating the customary U.S. weight
43 and measurement in parenthesis).

44
45 Please see APPENDIX D for the Metric Conversion Table.

16

17
18 **ITEM 4-7 DEPARTMENT OF TRANSPORTATION (DOT) EMERGENCY RESPONSE**

20
21 Each carrier that is subject to this TOS that picks up or

A. DELIVERY TIMES.

(1) ALL DEPARTMENT OF VETERANS AFFAIRS (VA) MINIMUM CHARGE (MC) AND LESS THAN TRUCKLOAD (LTL) SHIPMENTS.

Except for VA routed shipments destined to Alaska and Hawaii, a carrier shall:

deliver all above referenced shipments within 1,609.3 kilometers (1,000 mile) radius of the agency shipping facility within 4 calendar days; and

deliver all above-referenced shipments exceeding 1,609.3 kilometers (1,000 mile) radius of the agency shipping facility within 7 calendar days.

Transit times for VA routed shipments to Alaska and Hawaii are computed from the port of embarkation (POE) named by VA. For shipments destined to Hawaii, the POE can either be Oakland or Los Angeles, CA. Carriers shall deliver VA routed shipments from one of the West Coast Ports to Hawaii within 8 calendar days. For shipments destined to Alaska, the POE is Seattle, WA. Carriers shall deliver all VA routed shipments from Seattle, WA, to all customers in Anchorage, AK, within 7 calendar days and to all other customers in Alaska within 12 calendar days.

(2) **ALL DEPARTMENT OF VETERANS AFFAIRS (VA) SHIPMENTS
BASED ON TRUCKLOAD (TL) RATES,**

Carriers shall be required to deliver all
Truckload (TL) shipments within the following time
standards:

DISTANCE

1.61 kilometers (1 mile)	160.93 kilometers (100 miles)	Upon request, or Same day or next by 10:00 AM
1.61 kilometers (1 mile)	885.12 kilometers (550 miles)	2nd day by 10:00. AM local time.
886.72 kilometers (551 miles)	1,770.23 kilometers (1,100 miles)	3rd day by 10:00 AM local time.
1,771.84 kilometers (1,101 miles)	2,655.35 kilometers (1,650 miles)	4th day by 10:00 AM local time.
2,656.95 kilometers (1,651 miles)	3,540.46 kilometers (2,200 miles)	5th day by 10:00 AM local time.

4,427.18 kilometers (2,751 miles)	and over	7th day by 10:00 AM local time.

1 **B. METHOD OF MEASUREMENT.**

2
3 Transit time is measured in calendar days, including
4 Saturday, Sunday, Federal holidays (i.e., New Year's
5 Day, Martin Luther King's Birthday, Washington's
6 Birthday (Presidents' Day), Memorial Day, Independence
7 Day, Labor Day, Veterans Day, Thanksgiving Day,
8 and Christmas Day) and other days
9 designated as a holiday by Federal statute or Executive
10 order.

11
12 Transit time begins the day the shipment is signed for
13 by the originating carrier and ends at the time the
14 shipment is delivered (or made available for delivery)
15 to the receiving activity (destination.) Unless the
16 agency or the customer requests and authorizes delivery
17 on Saturdays, Sundays, or holidays listed in this part,
18 carriers shall not be required to deliver shipments on
19 these days. Carriers shall not be penalized if they
20 refuse to voluntarily make Saturday, Sunday, or holiday

ITEM 5-2 PICKUP.

A. GENERAL.

Carrier pickup service shall include arriving on time for pickup, and with the type and quantity of equipment ordered by the shipper. The shipper may inspect the carrier's equipment upon arrival and, if determined unsuitable for freight loading, reject the equipment.

B. ORDERING EQUIPMENT.

When ordering equipment or requesting a pickup date, carriers will receive advance notice. Unless an abnormal amount or type of equipment is requested, carriers will be notified in the afternoon prior to the day the equipment is needed. However, in some circumstances, the carrier may be required to perform same day pickup service. Carriers will not be penalized if they are unable to provide this "special" same day pickup service.

C. METHOD OF MEASUREMENT.

Pickup service will be measured using agency shipping facility dispatcher records indicating the requested time and date of pickup and carrier sign-in registers indicating carrier date and time of arrival. Unless a carrier requested and received, permission to delay the pickup date or time, shipping facility ordering official from the agency measurement of efficient pickup service will be based only on the agency shipping facility dispatch records.

1 **ITEM 5-3 LOSS OR DAMAGE.**

2
3 **A. GENERAL.**

4
5 Claims for loss or damage claims attributable
6 to the carrier must be acknowledged and
7 settled in accordance with the provisions of
8 Federal Regulations (49 CFR), Part 1005.
9

10 **B. METHOD OF MEASUREMENT.**

11
12 In all instances, loss or damage claim settlements will
13 be applied to the ORIGIN carrier performance of service
14 using reports, records, and history files compiled by
15 the agency. These reports, records, and history files
16 will include the number of shipments handled
17 as well as the number of claims settled against each
18 participating carrier.
19

20
21 **ITEM 5-4 UNUSUAL INCIDENTS.**

22
23 Carriers shall provide a written report to the GBL
24 issuing officer of any event such as the seizure of
25 cargo, fire, strikes, embargoes or any other incidents
26 which produces substantial freight loss, damage or delay.
27 These reports shall be made available to the GBL
28 issuing officer within two days after such an incident.
29

30 The initial written report shall include the following
31 information and be followed up by a detailed written
32 assessment of the loss or damage, and delays encountered and
33 final disposition of the property:
34

- 35 A. Type of incident;
36
37 B. Location of incident;
38
39 C. Description of any hazardous cargo;
40
41 D. GBL Number and date issued;
42
43

- 1 E. GBL issuing office;
- 2
- 3 F. origin;
- 4
- 5 G. Destination;
- 6
- 7 H. Date shipment received by carrier;
- 8
- 9 I. If applicable, required delivery date;
- 10
- 11 J. Date and time of incident;
- 12
- 13 K. Estimated amount of loss and extent of damage;
- 14
- 15 L. Current status of shipment(s), including new estimated
- 16 time of arrival (ETA); and
- 17
- 18 M. Location of shipment(s), if applicable.
- 19
- 20

21 **ITEM 5-5 ALL OTHERS.**

22
23 This category includes the evaluation of all other services
24 that carriers may be requested to provide, such as the
25 ability to provide accessorial and special services as
26 required, documented customer complaints, adherence to
27 Federal, State, local, and agency shipping facility
28 regulations, and unwarranted refusal of shipments.
29 (Selective acceptance of shipments is prohibited.)
30

31
32 **ITEM 5-6 OTHER ELEMENTS.**

33
34 All other service deficiencies requiring a carrier response
35 and/or action must be responded to by the carrier within
36 10 days of receipt of an agency deficiency notice
37 notice of such a deficiency. The carrier response must
38 include a plan to correct the deficiency. The elements of
39 service described herein generally refer to specific
40 operational factors affecting the timely, efficient and
41 cost-effective movement of agency freight.
42

43 There are, however, other elements which will be considered
44 in determining the overall performance of a carrier and the
45 ability and fitness of a carrier to provide service. These
46 elements are of such importance that one violation
47 will render subject carrier to possible placement
48 in temporary nonuse status.

1 These elements include, but are not limited to:

- 2
- 3 A. Willful violations of tenders or tariffs;
- 4
- 5 B. Failure to pay just debts thereby subjecting Government
- 6 shipments to possible frustration, unlawful seizure, or
- 7 detention;
- 8
- 9 C. Failure to maintain proper insurance coverage;
- 10
- 11 D. Operating without legal authority; and
- 12
- 13 E. Failure to have in its possession a current copy of the
- 14 DOT Emergency Response Guidebook when picking up or
- 15 transporting a shipment of hazardous material.
- 16
- 17

18 **ITEM 5-7 REQUEST FOR A WAIVER OF REQUIREMENTS OF THE TOS OR GBL**

19 **A. WHEN GRANTED AND BY WHOM.**

20

21 The GBL issuing officer, the agency shipping facility

22 traffic manager or the agency servicing office

23 representative shown in APPENDIX A may, for an

24 individual shipment, waive one or more of the

25 requirements in this TOS or of the GBL in whole or in

26 part because of the incompatibility of such

27 requirements with the prevailing circumstances. An

28 affected carrier may submit the waiver request verbally

29 to the GBL issuing officer, however, the request must

30 be confirmed in writing by the carrier to the GBL

31 issuing officer within one day of the initial request.

32

33

34 **B. CONFIRMATION OF WAIVER.**

35

36 If the GBL issuing officer determines that

37 a waiver is justified, it will be amended as an

38 amendment to the GBL and be distributed

39 to the carrier, within two working days

40 after receiving the carrier's request.

1 **ITEM 5-8 ASTRAY FREIGHT.**

2
3 In the event that freight is separated from the carrier's
4 freight bill or bill of lading, the following procedures
5 will apply:

- 6
7 A. When the carrier is able to determine the consignee,
8 either from the markings on the freight or from the
9 shipping documentation affixed to or contained within
10 the freight, the carrier will promptly deliver the
11 freight to the consignee.
- 12
13 B. When the consignee cannot be determined from the
14 markings on the freight or shipping documents, but the
15 carrier is able to determine that the property belongs
16 to VA, then the carrier will contact the Traffic Manager,
17 VA Transportation and Logistics Center (VATLC),
18 (202) 273-6118 or FAX (202) 273-6225 for disposition
19 instructions.
- 20
21 C. When specific agency ownership cannot be determined for
22 astray freight which is identifiable Government
23 property, the carrier will contact the nearest
24 Government installation for disposition instructions.

SECTION 6 SERVICE PERFORMANCE STANDARDS

ITEM 6-1 CARRIER PERFORMANCE REVIEWS.

A. DOCUMENTING CARRIER PERFORMANCE.

Carrier performance data will be obtained from a variety of sources, including, but not limited to the following:

- (1) Complaints (both written and oral) submitted by an agency transportation officer, GBL Issuing Officer, agency official, agency shipping facility operating personnel, or consignee;
- (2) Reports obtained or formulated from carrier pickup records, history files, finance payment records, and agency discrepancy computer runs; and
- (3) Serious incident reports.

ITEM 6-2 CARRIER EVALUATION.

A. Carrier performance shall be evaluated periodically, but at least annually, using the service standards established in this TOS. Four categories will be analyzed as shown in B below.

A carrier will be issued a warning letter and may be placed in a temporary nonuse status based on deficiencies in any individual category.

B. Service Standard Table:

<u>CATEGORIES</u>				
	1	2	3	4
RANKING	TRANSIT TIME STANDARD	PICKUP STANDARD	LOSS AND DAMAGE STANDARD	ALL OTHERS
EXCELLENT	100% - 98%	100% - 99%	100% - 99%	100% - 99%
VERY GOOD	97% - 96%	98% - 97%	98% - 97%	98% - 97%
SATISFACTORY	95% - 94%	96% - 94%	96% - 95%	96% - 95%
UNSATISFACTORY	Below 94%	Below 94%	Below 95%	Below 95%

C. Maximum use will be made of carriers whose ranking for all categories is highest and when transportation costs are competitive.

1 D. Carrier performance that is determined to be
2 "UNSATISFACTORY" for one or more categories will result
3 in the issuance of a warning letter by the respective
4 agency servicing office or his or her designee. The
5 carrier will be advised that its service for one or
6 more categories is "UNSATISFACTORY" and that if service
7 for that category(ies) fails to improve, the carrier
8 will be subject to placement in temporary nonuse
9 status.
