

“Hi, I’m Collyn & I’m a staff nurse in the Progressive Care Unit. I can honestly say that the VALOR Program was probably the most beneficial part of my nursing school experience. I gained valuable, hands-on experience in a variety of settings, and I was also able to take advantage of the (VALOR) Scholarship program which really helped me eliminate a lot of my debt after I graduated. I am now also a preceptor for (new) VALORs and orientees and I can truly say that having that extra experience gave me an edge among all of my (GNT) co-workers. The VALOR program is a wonderful experience and if you have the opportunity, you should definitely take advantage of it.”
