3. POLICY

   a. The requirements for the Proficiency Rating System are regulations prescribed pursuant to section 7421 of Title 38, U.S. Code. The proficiency rating system is designed to assure the effective and efficient utilization of the covered employees and to furnish bases for assistance and guidance to them in the performance of their assignments and the development of their skills and abilities.

   b. The proficiency rating system provides for planned, continuous, and systematic review, analysis and evaluation by all supervisors of the effectiveness of employees in their assignments.

   c. The proficiency rating of supervisors includes an evaluation of their performance in furthering equal employment opportunity, including employment of disabled veterans and other individuals with disabilities, minority groups, and women.

4. PROCEDURES. The Under Secretary for Health and designees will prescribe instructions for periodic counseling of employees, for regular annual proficiency ratings, for delays of these ratings, and for special ratings to be made as administratively required.
b. When an unsatisfactory rating has been approved for a temporary full-time, part-time, or intermittent employee, supervisory officials will review the employee's service and, if applicable, clinical privileges, and determine whether termination is appropriate (See VA Handbook 5021).

c. When an unsatisfactory rating has been approved for a permanent employee, supervisory officials will review the employee's services and clinical privileges, and then determine which of the following actions may be appropriate:

(1) The employee should be detailed for a period not to exceed 6 months under the guidance of a highly qualified preceptor.

(2) The employee should be sent for additional training.

(3) The employee should be reassigned or have a change in duty assignment.

(4) The employee’s fitness for continued VHA employment should be considered by a Physical Standards Board. (See VA Handbook 5019, Occupational Health Services.)

(5) The employee’s clinical privileges should be modified.

(6) Procedures in VA Handbook 5021 should be initiated.

11. ADVICE FROM EXPERT SOURCES. The proficiency approving official, after obtaining any needed authorizations, may request assistance from such professional sources as the Deans Committee, a consultant, or a peer group with expertise in the areas of the performance in question.
